Re: Docket No. 05-03 WC – Robert C. Senter Appeal

Dear Mr. Sclafani,

In accordance with the requirements set forth by the NH Water Council ("the Council") in a letter dated April 13, 2005 pertaining to the above-referenced matter, Seekamp Environmental Consulting, Inc., ("SEC") hereby submits the following report, detailing the status of Senter Brothers, Inc.'s ("Senter's") Request for Reconsideration of Administrative Order WD 05-03 to the Department of Environmental Services, Water Division ("DES").

- The Request for Reconsideration ("Request") was received by the DES on March 3, 2005.
- SEC received a written request for additional information from Tracey Boisvert, Senior Enforcement Officer, DES Wetlands Bureau, on March 31, 2005, which outlined the details required by the DES in order to issue a determination.
- SEC met (onsite) with Arlene Allen, DES Compliance Officer, and a representative from DES Site Specific Program, on April 6, 2005, to evaluate site conditions, and identify specific issues that must be addressed in order to bring the site into compliance with applicable wetlands, stormwater, and general site alteration regulations.
- SEC is currently preparing a response to both the items identified in the DES' March 31, 2005 letter and the issues identified during our onsite meeting with representatives from both the DES Wetlands and Site Specific Program(s).

We trust this information is sufficient for your needs. SEC will continue to provide regular updates to the Council, until such time as a decision is rendered by the DES. In

the interim, please feel free to contact the undersigned if you have any questions or require additional information.

Regards,

SEEKAMP ENVIRONMENTAL CONSULTING, INC.
